

# Romina Ghaderi

Fullstack Developer

## About me

I'm a Fullstack developer from Sweden. During my education I have learned to build and design software with different technologies. It's a big passion for me. I have experience in React, Vue and Node.js etc. I find it easy to understand new technology and I'm a fast learner. I'm also described by others as a girl with great commitment to her work and someone who spreads positive energy.
